

```
//given n array count no of element atleast one element greater than itself
class Count {
    public static void main(String[] args) {
        int[] arr = {3, 1, 4, 5, 2};

        int l = arr[0];
        for (int i = 1; i < arr.length; i++) {
            if (arr[i] > l) {
                l = arr[i];
            }
        }
        int S = 0;
        for (int i = 0; i < arr.length; i++) {
            if (arr[i] < l) {
                S++;
            }
        }
        System.out.println("Number of elements " + S);
    }
}
```
